INTERNATIONAL SYMPOSIUM

**REGISTER BY
DECEMBER 14, 2007
TO SAVE**

JANUARY 7-9, 2008

**HILTON IN THE WALT DISNEY WORLD RESORT
ORLANDO, FLORIDA**

**LIVING TO 100:
SURVIVAL TO ADVANCED AGES**

Over 40 international participating organizations—including the American Academy of Actuaries and the Society of Actuaries—are proud to present Living to 100: Survival to Advanced Ages International Symposium

Join actuaries, demographers, gerontologists and other professionals from three continents for thought-provoking discussions and presentations on:

- Implications of an aging population on social, financial, health care and retirement systems
- Mortality projection methods
- Enhanced mortality rate and population projections

This program includes 2 1/2 days of groundbreaking presentations with more than 45 speakers and discussants from around the world.

**Register by December 14, 2007
to save!**

Visit <http://livingto100.soa.org> for more information and to see a complete listing of participating organizations and sponsors.

SOCIETY OF ACTUARIES

Actuaries
Risk is Opportunity.™

D.W. Simpson & Company has been specializing solely in the recruitment of actuaries since 1989. We are the largest of the firms that specialize in the placement of actuaries. We work at all levels of experience, from Actuarial Student to Fellowship, and with all disciplines: Life, Health, Pension, Property & Casualty, and non-traditional areas. In addition to our headquarters in Chicago, we have U.S. locations in Lexington, Milwaukee, Atlanta and Los Angeles. Internationally, we have offices in Sydney and Melbourne, Australia, Hong Kong, London and Mumbai. Our objective is to be the foremost resource for actuarial talent, globally.

Booth number 408

Milliman

Consultants and Actuaries

Milliman—MG-ALFA®

CONTACT: Brian S. Reid, FSA, MAAA
MG-ALFA Sales Director
PHONE: 860-535-0573
EMAIL: brian.reid@milliman.com

MG-ALFA is Milliman's actuarial projection system for pricing, forecasting, ALM, EV, capital allocation, and principles-based reserves and capital. It offers robust support for life, health, annuities, and a full range of asset classes. Our proprietary technology provides a clear advantage in speed and capacity as well as the ability to fully support stochastic and nested stochastic ALM projections. The system, which allows for out-of-the-box integration with grid computing solutions from DataSynapse and Milliman, is differentiated by its depth of functionality for product features and regulatory compliance, and a much higher level of user support.

Booth numbers 410 and 412

Milliman
Consultants and Actuaries

Milliman—MG-Triton®

CONTACT: Mark S. Mahany, FSA
MG-Triton Product Manager
PHONE: 860-687-0170
EMAIL: mark.mahany@milliman.com

The MG-Triton valuation systems calculate statutory, tax, and GAAP reserves (i.e., DAC asset and unearned revenue reserves) for interest-sensitive life (UL, VUL, ISWL & EIUL), annuity (deferred, immediate, equity-indexed and structured settlements), traditional (term and whole life), and health (LTC, DI, LTD & Medicare Supplement). The systems have been updated for all current regulations. MG-Triton's Import/Export module dramatically reduces system implementation or conversion time. With the move toward a principles-based approach to reserves and capital, MG-Triton, MG-ALFA®, and Milliman provide an unparalleled combination of systems and actuarial expertise to offer a comprehensive solution.

CONTACT: Bob Keating
E-MAIL: bkeating@polysystems.com

PolySystems is a leading international provider of valuation, financial analysis and risk management software. PC based systems compute reserves for all traditional life, universal life, annuities and health products. PolySystems' software supports embedded value calculations, SOP 05-1, SOP 03-1, RBC C-3 Phase 2 (including the standard scenario) and AG38.

PolySystems offers analytics and modeling. Modules for experience studies, source of earning analysis, variance analysis and projections (including new business modeling) are available.

For cash flow testing and asset liability management work, PolySystems' Asset Delphi System integrates the liability processing with capabilities that reflect actual assets and economic scenarios analysis. It supports deterministic scenarios and stochastic processing. All valuation and projection systems run on PolySystems Grid Processing Systems.
